MEMORANDUM FOR THE RECORD

SUBJECT: Renegotiation Board Holding Classified Material

1. I talked with Dave Lambert on 6 November. I was calling him to follow up his request to Charles Kane that an Agency Security officer examine their facilities for storing classified materials to determine if they came up to standards. I gave Lambert the substance of my conversation with Chairman Whitehead, recorded in my Memorandum for the Record of 4 November 1974.

2. I suggested to Lambert that it seemed to me inappropriate for the Agency to send a man down at this time since this would be putting us in the middle between opposing factions at the Board. Lambert readily agreed with this. We also agreed that the subject would simply be dropped until some time after the first of the new year, at which time we will re-examine the matter.
